

Exciting Update: Customized Semaglutide and Tirzepatide Formulations at Westmoreland Pharmacy

April 17, 2025

Dear Provider,

We are pleased to share that Westmoreland Pharmacy will be offering customized, patient-specific formulations of Semaglutide and Tirzepatide, now with Vitamin B12 starting next Wednesday, April 23, 2025. Additional options, such as Vitamin B6, Glycine, or Sermorelin, will be introduced to tailor treatments to individual patient needs.

We recognize this update differs from recent communications. We sincerely apologize for any confusion regarding the availability of GLP-1 compounds. Our priority remains in supporting our patients while following FDA guidelines.

We are putting together prescribing instructions with dosing, concentration formulations, and pricing, and will send them out soon.

To streamline the process and minimize your team's workload:

- Patients are encouraged to contact the pharmacy directly for refills.
- We will handle any necessary prescription changes directly with your office.
- Our team will reach out to patients soon following this communication to discuss their options. We will encourage them to **call the pharmacy** with questions and for help with refills.

We understand the evolving landscape of compounded GLP-1 medications can be challenging, and we deeply appreciate your continued partnership. Our goal is to support your patients while reducing administrative burdens for your practice.

Please contact us with any questions or concerns via email at info@westmorelandpharmacy.com or call 812-944-6500 or 812-944-6900, Monday-Friday 9am-6pm ET and Saturday 9am-1pm, to speak to a pharmacist.

Warm Regards,

The Westmoreland Pharmacy Team

812-944-6500 or 812-944-6900
